

List of Online Cancer Registry Resources for Abstracting

NCRA has prepared this list of resources to assist cancer registrars in accessing online resources for abstracting. The second list on page 11 includes general online resources that might prove helpful to registrars. Questions? Suggestions? Please e-mail info@ncra-usa.org.

SEER Hematopoietic and Lymphoid Neoplasm Coding Manual and SEER Hematopoietic and Lymphoid Neoplasm Data Base

Provides data collection rules for hematopoietic and lymphoid neoplasms for 2010 and forward. The *Hematopoietic and Lymphoid Neoplasm Coding Manual* contains reportability instructions and rules for determining the number of primaries, the primary site and histology, and the cell lineage or phenotype. The manual's introduction has an updated "Steps in Priority Order" for using the *Hematopoietic and Lymphoid Neoplasm Coding Manual & Data Base*.

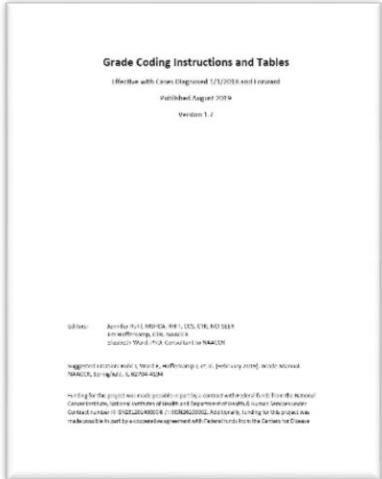

As instructed by SEER, the *Hematopoietic and Lymphoid Neoplasm Data Base* is a tool to assist in screening for reportable cases and determining reportability requirements.

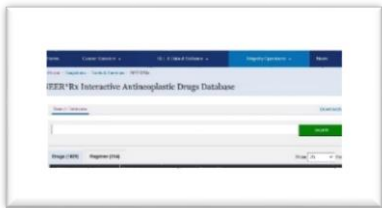

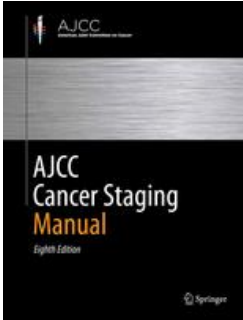

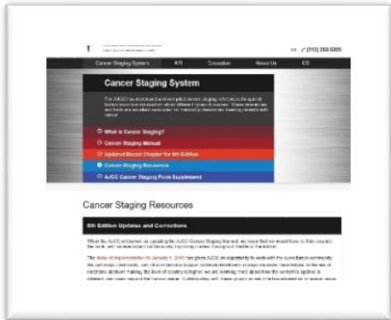

The database contains abstracting and coding information for all hematopoietic and lymphoid neoplasms.

For all cases diagnosed on or after January 1, 2018, the instructions and codes in this manual take precedence over all previous instructions and codes.</p> <p>The <i>SEER Program Coding and Staging Manual, 2018</i> explains the format and the definitions of the data items required by SEER.</p> <p>Source: National Institute of Health (NIH), National Cancer Institute (NCI), Surveillance, Epidemiology, and End Results Program (SEER)</p>	<p>Jan. 29, 2019</p>
	<p>Link to <i>Summary Stage 2018</i> website. https://seer.cancer.gov/tools/ssm/</p> <p>Link to PDF of <i>Summary Stage 2018 General Coding Instructions</i>. https://seer.cancer.gov/tools/ssm/SSM2018-General-Instructions.pdf</p>	<p>SEER Summary Stage 2018: General Coding Instructions (September 2019)</p> <p>Note: Summary Stage can often be distant when AJCC states it is regional, and vice versa.</p> <p>Summary Stage is the most basic way of categorizing how far a cancer has spread from its point of origin.</p> <p>Historically, Summary Stage has also been called General Stage, California Stage, historic stage, and SEER Stage.</p> <p>The 2018 version of Summary Stage applies to every site and/or histology combination, including lymphomas and leukemias. Summary Stage uses all information</p>	<p>Sept. 2019</p>

		<p>available in the medical record. In other words, it is a combination of the most precise clinical and pathological documentation of the extent of disease.</p> <p>Source: National Institute of Health (NIH), National Cancer Institute (NCI), Surveillance, Epidemiology, and End Results Program (SEER)</p>	
	<p>Link of PDF of <i>Extent of Disease (EOD) 2018 General Coding Instructions, September 2019</i>. https://seer.cancer.gov/tools/staging/2018-EOD-General-Instructions.pdf</p> <p>Link to SEER's <i>Extent of Disease 2018</i> webpage, including the <i>EOD Schema List</i>. https://staging.seer.cancer.gov/eod_public/home/1.7/</p>	<p>Extent of Disease (EOD) 2018</p> <p>EOD is a set of three data items that describe how far a cancer has spread at the time of diagnosis.</p>	<p>Cases diagnosed in 2018 and later.</p>
	<p>Link to PDF of <i>Site-Specific Data Item (SSDI) Manual</i>. https://www.naaccr.org/SSDI/SSDI-Manual.pdf?v=1527608547</p>	<p>Site-Specific Data Item (SSDI) Manual</p> <p>Note: Reference these tools from SEER when coding SSDI's. Note recording of size. Is it in millimeters or centimeters?</p> <p>The Site-Specific Data Item (SSDI) manual is the primary resource for documentation and coding instructions for site-specific data items introduced in 2018.</p> <p>Important: Before using the Manual as an information resource for specific data items, it is important to review the introductory materials and general instructions carefully. Although the data items that are collected as SSDIs were previously collected as SSFs, the format of the data items and allowable values have changed substantially, particularly for laboratory values.</p>	<p>September 2019</p>

	<p>Link to <i>Site-Specific Data Items (SSDI)/Grade</i> online version. https://apps.naaccr.org/ssdi/list/</p>	<p>Information about the SSDIs has been organized using primary site groupings and presented in the order used in the AJCC manuals, a format that is familiar and useful to registrars and most others using the SSDI Manual. However, there is an alphabetical index for the SSDIs with the corresponding page number in the last two pages of the Manual for those who may want to search it for a specific SSDI by data item name.</p> <p>The “Table of Contents” for the Manual contains hyperlinks so that clicking anywhere on the line where an SSDI and page number are listed will take you directly to that page in the Manual.</p> <p>Source: North American Association of Central Cancer Registrars (NAACCR) Site Specific Data Items (SSDI/Grade)</p>

International Classification of Diseases for Oncology, 3rd Edition (ICD-O-3) (out of print/PDF version only)

January 29, 2019

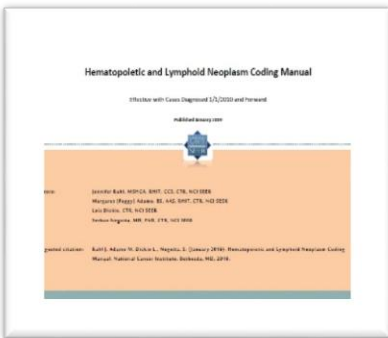

Coding Topography/Histology of Neoplasms

Use the WHO's ICD-O-3 to code topography and histology of neoplasms for cases diagnosed 01/01/2001 and later.

Use 2018 Solid Tumor Rules for additional coding instructions for some primary sites, including Head & Neck, Lung, and Urinary.

Use the SEER Program Coding and Staging Manual for instructions on coding primary site, Section IV.
